What is product management? | Atlassian Agile Coach

Product Management is responsible for defining and supporting the building of desirable, feasible, viable, and sustainable products that meet customer needs over the product-market lifecycle. To do this, they collaborate with a wide range of people to identify and define customer needs, understand the Solution Context, and develop the Program Vision, Roadmap, and Features required to meet ...

Product and Solution Management - Scaled Agile Framework

The role of the Product Manager becomes even more vital as organizations embrace business agility. As organizations become more customer-centric, there is a need to better understand and relate to customers. Product discovery and product strategy are key to aligning your product with your organization's purpose and your customers' needs.
