Summary. Never before published in any Western language except in fragments, this classical work of Chinese mysticism is a fundamental - and fascinating - source for the study of Taoism ("Deism") as belief and as practice. In the China of the 4th century A.D., alchemy, medicine, and religion were so closely interrelated as to form a single study; the Western gap between science and religion, and between scholarly study and moral practice did not obtain.

Chinese alchemy is an ancient Chinese scientific and technological approach to alchemy, a part of the larger tradition of Taoist / Daoist body-spirit cultivation developed from the traditional Chinese understanding of medicine and the body. According to original texts such as the Cantong qi, the body is understood as the focus of cosmological processes summarized in the five agents, or wu xing, the observation and cultivation of which leads the practitioner into greater alignment with the operat
