Application of nursing theory

Systems theory requires strategic thinking about the possibilities and limitations for change in the different systems affecting the user's environment, as well as an understanding of the possibilities for intervention in each system (deShazer, 1982; Penn, 1982), therefore considering DE's behaviour in specific settings and with specific individuals and agencies was a useful strategy. In ...

1606 Words | Bartleby

Generally, a first step in a theory application assignment is to make certain you understand the theory! You should be able to state the theory (the author's main argument) in a sentence or two. Usually, this means specifying the causal relationship ( $X \rightarrow Y$ ) or the causal model (which might involve multiple variables and relationships).
