Author Bart Bossink offers insight into the systematic coherence of drivers of eco-innovation and sustainability utilizing a three-part approach: (1) eco- and sustainable innovation in business is based on ideas and people who cooperatively develop these ideas; (2) groups of people, organized in commercial firms, must realize these ideas cooperatively and create the innovations that can conquer the market; and (3) that people from governmental, non-governmental, not-for-profit, research, and ...

Eco-Innovation and Sustainability Management eBook by Bart ...

There is widespread social and governmental concern about sustainable development. The key to development is business innovation, but institutions, society, and the market are pressing for innovation to be committed to sustainability. Business innovation—whether in processes, products, or services—must have a positive impact on the natural environment for stakeholders to validate the innovation.

Sustainability | Special Issue : Business Innovation and ...

In November 2007, the OECD Committee on Industry, Innovation and Entrepreneurship (CIIE) tasked the Secretariat to work on sustainable manufacturing and eco-innovation with a project proposal. This synthesis report extracts key findings from the analytical papers prepared during the first phase of this project.

Sustainable Manufacturing and Eco-Innovation

Companies must take into account sustainability. All companies, from Multinational to smaller local ones must be able to integrate sustainable practices into the way they do day-to-day business. To meet this challenge they require specifically trained managers throughout the organization capable of developing sustainable strategies.
