About the Book. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. Due to the comprehensive nature of the material, we are offering the book in two volumes. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be ...

All material covered in any entry level accounting textbook is covered, even an introduction to Auditing. The depth is very good for an accounting principles textbook, with the technical "fine print" omitted. There is good coverage of the overriding principles of accounting. The index is very detailed, but the glossary is not.
