"A highly recommended, character-driven sci-fi novel in the tradition of Robert A. Heinlein." -Kirkus Reviews "A fun story of survival and endurance that hits some metaphysical high notes and exudes a special feeling of "cool", Exigency is highly recommended to any big-hearted and sharp-minded reader in search of a sturdy sci-fi page-turner." -Red City Review Nine brilliant scientists travel light years on a one-way trip to an Earth-like planet. Their mission is to study from orbit the two species of intelligent lifeforms on the surface. The first: an isolated people embarking on civilization and building their world's first city. The second: a brutal race of massive predators, spread thick and still growing across the dominant landmass--destined to breed and eat their way to extinction within a few centuries. crewmembers eject successfully. Drifting down through a dark alien sky, the pair realizes their escape pod launched not toward the safety of the city, but to the other side of the planet, touching down deep inside a land no human could possibly survive.

Meet Sarah Walters, a Camellia Society debutante with a weakness for bad ideas. Sarah's mother lectures her on etiquette but tends to get loose after a few gins. Still, Sarah tries to follow the debutante code - after all, in Charleston, manners mean everything. But it's not easy to follow the rules, particularly in the summers when she runs into boys in pickup trucks, or, later, when she moves to New York with her friends. For the Camellia girls soon learn, careers don't always go to plan and men don't always love you back: the bright future they thought was theirs dissolves into heartbreak, illness and addiction. And when a shocking event brings thirty-something Sarah back home to Charleston, she must decide where 'home' really is.

“One of the most refreshing, humorous, and radically honest books about practical and comparative religion this reviewer has ever come across.”—Library Journal (starred review) Create Your Own Religion is a call to arms—an open invitation to question all the values, beliefs, and worldviews that humanity has so far held as sacred in order to find the answers we need to the very practical problems facing us. Writer, philosopher, and professor of comparative religion, Daniele Bolelli, leads the reader through three thousand years of mythology, misogyny, misinformation, and the flat-out lies about “revealed truth” that continue to muddle our ability to live a peaceful life, free of guilt and shame and the ultimate fear of death. “Our worldviews are in desperate need of some housecleaning,” says Bolelli. “We enter the 21st century still carrying on our backs the prejudices and ways of thinking of countless past generations. What worked for them may or may not still be of use, so it is our job to make sure to save the tools that can help us and let go of the dead weight.” “With a cheerful, good-natured smile, Daniele Bolelli torpedoes the often luxurious but spiritually leaky battleships that sail under the various flags of the world’s organized religions.”—Tom Robbins, New York Times bestselling author “Daniele Bolelli is in the house. Minds will be blown. Lives will be changed.”—Joe Rogan, comedian and podcast host “Bolelli’s direct confrontation with dogma

Winner of the Australian/Vogel's Literary Award 2003. With dreams of moving to a house by the sea haunting their every day, Millvan and his wife, Michelle, owners of a riverside property in a small outback farming community, struggle with drought, friends, adversaries and the wrenchingly familiar rural cycle of hope and despair. *Drown them in the Sea* tells a compellingly honest story of the challenges and hardships of farming life in Australia. In vivid, vital language, Nicholas Angel captures both devastated landscape and human desire in this powerfully authentic evocation of life on the land.

In this sizzling novel from New York Times bestselling author Bella Andre, a wild pro-football star meets his match when his image consultant turns out to be an ex from his past. He's the Super Bowl hero men idolize and women lust after, the bad-boy quarterback with a dangerous edge. But behind his devil-may-care grin, Ty Calhoun hides a desire that only one woman can ever fulfill—and a memory he can't shake: high school graduation night, and mind-blowing sex with the untouchable girl of his dreams. He'd trade every trophy to feel the heat of her sensual, uninhibited passion once more. And he may get that chance—because she's just been hired by the San Francisco Outlaws' new owner to make over Ty's reputation. The country's top image consultant, Julie Spencer is a total pro at cleaning up the messes of the rich and famous. Even working with the man who took her virginity and broke her heart ten years ago can't rattle her. Until he touches her again. One hot kiss is all it takes to spark the same knee-quaking electricity, and soon they're mixing business and extreme pleasure. Knowing the danger Ty poses to her heart, though, Julie's determined to keep her distance. But Ty has a game plan of his own. The more he misbehaves, the more Julie will have to keep tabs on him—and the more he can show his dream girl just how fun it is to be bad. This time around, he's game for anything...especially winning her heart.

China has lived with the Internet for nearly two decades. Will increased Internet use, with new possibilities to share information and discuss news and politics, lead to democracy, or will it to the contrary sustain a nationalist supported authoritarianism that may eventually contest the global information order? This book takes stock of the ongoing tug of war between state power and civil society on and off the Internet, a phenomenon that is fast becoming the centerpiece in the Chinese Communist Party's struggle to stay in power indefinitely. It interrogates the dynamics of this enduring contestation, before democracy, by following how Chinese society travels from getting access to the Internet to our time having the world's largest Internet population. Pursuing the rationale of Internet regulation, the rise of the Chinese blogosphere and citizen journalism, Internet irony, online

propaganda, the relation between state and popular nationalism, and finally the role of social media to bring about China's democratization, this book offers a fresh and provocative perspective on the arguable role of media technologies in the process of democratization, by applying social norm theory to illuminate the competition between the Party-state norm and the youth/subaltern norm in Chinese media and society.
