Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

William Dean Howells' 1885 novel, The Rise of Silas Lapham tells the story of its protagonist's materialistic aspirations; his rise from rags to riches. Despite making a fortune in business, Silas feels he lacks social position; he banks on the marriage of his daughter to an aristocratic family to change this. But Silas faces a moral quandary when his business partner suggests dodgy business dealings.
