Seamus Heaney, widely considered the most

gifted living poet in Ireland and Britain, is the first Irish poet since Yeats to gain an international reputation. In this remarkable study, Henry Hart discusses Heaney's poems, his creative and personal situations, and his assimilation of contemporary literary theory. From Heaney's Ulster background to poetic influences as diverse as Dante and Wordsworth, Yeats and Bly, Hart offers sophisticated, lucid insights. Hart argues that the best way into Heaney's poetic world is in seeking to understand him—as with Blake and Yeats—in terms of oppositions and conflicts, progressions and syntheses. At the

root of all his work is a multifaceted argument with himself, with others, with sectarian Northern Ireland, with his Anglo-Irish heritage, with his Roman Catholicism, and with his Nationalist upbringing on a farm in County Derry. For each volume of poems, from *Door into the Dark* to *The Haw Lantern*, Hart identifies and works with a specific problem in the text, while developing its intellectual and creative implications. He covers aspects as diverse as Heaney's incorporation of antipastoral attitudes in his poems, his fascination with how etymology recapitulates ancient and modern history, and

apocalypticism in North. Placing his trust in art's ability to confront conflicts between freedom and responsibility, between private craft and public involvement, Heaney is shown nonetheless to chastise himself for failing to have a greater impact on the situation he left behind in Northern Ireland. In pursuing the literary, religious, and political themes in his books of poetry, Hart shows that Heaney is no provincial bard, as some critics have suggested, but is as intellectually informed and astute as any postmodernist writer. Any reader of Seamus Heaney's poetry, and any poet, poetry scholar, critic of

contemporary poetry, or student of Irish literature will gain much from reading this book.

Seamus Heaney's Nobel Lecture, captured here in *Crediting Poetry*, is a powerful defense of poetry as "the ship and the anchor" of our spirit within an ocean of violent, divisive politics and "world-sorrow." Beginning with the "creaturely existence" of his childhood in a thatched farmstead in rural County Derry, Heaney traces his path in "the wideness of language." It is a way forged by listening: to the "burbles and squeaks" of

BBC and Radio Eireann from a wireless speaker, to the triple-rhyme in a line of Yeats', but also to the sound of gunfire in Ulster and the keening desolation of all the "wounded spots on the face of the earth." Out of all these sounds Heaney discovers the necessity of poetic order--"an order where we can at last grow up to that which we stored up as we grew." It is poetry's ability to convey the forces of the marvelous and the murderous together, Heaney writes, that gives it "at once a buoyancy and a holding," and persuades us of its "truth to life." Heaney's lecture not only finds a way of crediting

poetry "without anxiety or apology," but it persuades us, eloquently and gracefully, of the "rightness" and "thereness" of our veritable human being.

"... Over 2000 years of Irish history, from pre-Christian times to the present-day Troubles."--Back cover.
