Celebrated for speaking with the birds, for receiving the stigmata and for initiating the Franciscan order, St Francis is one of the most radical and inspirational figures of the medieval Church.

People of Italian descent have been present in Detroit since Alfonso Tonti, second-in-command to Antoine Cadillac, participated in the founding of the city in 1701. By the close of the 19th century, the trickle of Italian immigrants had become a torrent, as thousands rushed to the growing industrial center. Settling on the lower east side, the community grew rapidly, especially north and east into Macomb County. Italians in Detroit did not remain in a "little Italy," but mingled with the diverse population of the city. Through a combination of hard work and strong family and community ties, the Italians of Detroit have achieved their dreams of a better life. They have met the challenges of living in a new land while nurturing the culture of the old country. The challenge that remains is to nurture a love of heritage among young Italian Americans as the immigrant generation fades.

Looking at more than two hundred Italian medieval and Renaissance mural cycles, Lavin examines—with the aid of computer technology—the "rearranged" chronologies of familiar religious stories found therein. "Like many masterpieces, Lavin's book builds upon a simple idea . . . it is possible to do a computer analysis of . . . visual narratives. . . . This is the first computer-based study of the visual arts of which I am aware that illustrates how those technologies can utterly transform the study of old master art. An extremely important book, one likely to become the most influential recent study of art of this period, *The Place of Narrative* is also a beautiful artifact."—David Carrier, Leonardo "Covering over a millennium and dealing with the whole of Italy, Lavin makes pioneering use of new methodology employing a computer database . . . [and] novel terminology to describe the disposition of scenes of church and chapel walls. . . . We should recognize this as a book of high seriousness which reaches out into new areas and which will fruitfully stimulate much thought on a neglected subject of very considerable significance."—Julian Gardner, Burlington Magazine

Contributors demonstrate how the tools of various intellectual disciplines can be used to examine what we now know about the story of Saint Francis in his own era and how that story has been appropriated in our period.

Convertitosi al cattolicesimo nel 1922, Chesterton pubblicò questo «bozzetto» su san Francesco nel 1923, come se dalla conversione del Santo di Assisi traesse uno spirituale alimento per la propria. Per Chesterton san Francesco era soprattutto un uomo innamorato di Dio e della Creazione, un poeta che si sentiva piccolo e cantava la gloria delle piccole cose, dei piccoli esseri viventi, della vita ordinaria di coloro che aiutava nella lotta contro la miseria. Dai folli gesti di carità compiuti quando era ancora il figlio di un mercante al rifiuto del mondo e alla creazione di un Ordine e di una regola che davvero imitavano la vita di Cristo, alle stigmate ricevute sul monte della Verna, e fino alla morte, ogni passo del suo cammino su questa terra era rivolto al cielo. Un amore così grande e appassionato, una mistica così semplice e assoluta appaiono «scandalose» alla mentalità moderna. Ma è proprio essa che Chesterton vuole scuotere in queste pagine, cercando di aiutarla, con la consueta ironia, a compiere il movimento di rivoluzione interiore che fece del piccolo Francesco Bernardone il grande san Francesco.

In September, 1219, as the armies of the Fifth Crusade besieged the Egyptian city of Damietta, Francis of Assisi went to Egypt to preach to Sultan al-Malik al-Kâmil. Although we in fact know very little about this event, this has not prevented artists and writers from the thirteenth century to the twentieth, unencumbered by mere facts, from portraying Francis alternatively as a new apostle preaching to the infidels, a scholastic theologian proving the truth of Christianity, a champion of the crusading ideal, a naive and quixotic wanderer, a crazed religious fanatic, or a medieval Gandhi preaching peace, love, and understanding. Al-Kâmil, on the other hand, is variously presented as an enlightened pagan monarch hungry for evangelical teaching, a cruel oriental despot, or a worldly libertine. Saint Francis and the Sultan takes a detailed look at these richly varied artistic responses to this brief but highly symbolic meeting. Throwing into relief the changing fears and hopes that Muslim-Christian encounters have inspired in European artists and writers in the centuries since, it gives a uniquely broad but precise vision of the evolution of Western attitudes towards Islam and the Arab world over the last eight hundred years.
