Just when I thought I've read every type of YA book imaginable, The Alchemy of Forever takes me by surprise. Seraphina is a 600-year-old Incarnation, an immortal who takes other people's bodies to continue living. But after six centuries, Sera is tired of living and killing other people just to extend her own life.

The Alchemy of Forever (Incarnation #1) Seraphina has been alive since the Middle Ages, when her boyfriend, Cyrus, managed to perfect a method of alchemy that lets them swap bodies with any human being. Sera ran away from Cyrus years ago, when she realized that what they were doing—taking the lives of innocent people—was wrong. Yet she ...

Mich BookShelf: The Alchemy of Forever (Incarnation #1)

I was excited to read THE ALCHEMY OF FOREVER, but I didn't expect to enjoy it nearly as much as I actually did. Sure, the plot sounded intriguing, but reincarnation novels can be a hit or miss. So I went in went in with low expectations, only to find myself completely engulfed in Seraphina's story. The story is about Seraphina Ames.

Being an Incarnate means immortality, thanks to alchemy, but tricking death has a cost: they have to take an innocent live in order to keep living. Seraphina is sick of the monster she's and of being strangled by Cyrus possessive love. She's willing to let it go forever, not sure what is in the other end for a being like her.

Forced to leave her alchemist boyfriend centuries earlier when she resolves to stop stealing the bodies of other people in order to extend her own life, Seraphina survives by inhabiting the bodies of dying girls and unexpectedly falls in love despite a dangerous power that causes the death of any human she kisses.

The immortal Seraphina is forced to face the darkness of her pastNand risk losing the love of her lifeNin this second novel in the Incarnation series.

As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take onthe Cinderella story.

Anna is less than thrilled to be shipped off to boarding school in Paris, leaving a fledgling romance behind — until she meets É tienne St. Clair. Smart, charming, beautiful, É tienne has it all...including a girlfriend. But in the City of Light, wishes have a way of coming true. Will a year of romantic near-misses end with a longed-for French kiss? "Magical...really captures the feeling of being in love" - Cassandra Clare, author of The Mortal Instruments series NPR's Year's Best Teen Reads, 2010. NPR's 100 Best-Ever Teen Novels, Number 53. Cybils Award Finalist for Young Adult Fiction, 2011. YALSA's Best Fiction for Young Adults. 2012 list YALSA's Popular Paperbacks for Young Adults: Forbidden Romance, 2012. TAYSHAS Reading List, 2012. In a bizarre world shared by people and intelligent animals, Conrad Metcalf, a human private detective, finds out one of his cases has drawn him into a conflict between gangsters and the Inquisitor's office

Presents innovative, decorative ideas for storing such items as dishes, linens, clothes, food, and home office supplies

" Alma Katsu ' s searing tale of otherworldly lovers and eternal obsession will seduce you from page one. With its elegant prose and riveting plot, The Taker is as irresistible as the hauntingly beautiful, pleasure-seeking immortals who scorch its pages " (Kresley Cole, New York Times bestselling author of the Immortals After Dark series). Combining the historical, supernatural, and fantasy in one stunning tale, The Taker centers on a mysterious young woman, Lanore, and an unwitting Maine doctor who falls into her world, a hidden world that exists outside the boundaries of time. In this magical realm, where the predatory use pleasure to corrupt the innocent, Lanore ' s incredible devotion to Jonathan, her first true love, captures the attention of Adaire, the dangerous man who rules this world, and ignites within him an all-consuming desire to possess her.

Alisa Perne is the last vampire. Beautiful and brilliant, she hunts alone, living among humans, living off humans. But someone is stalking her. Someone wants her dead. And Alisa has a choice to make - to keep a long held promise or protect the mortal she seems to be falling for.

A brilliant lyrical exploration of how modern science illuminates what it means to be human, from the award-winning author of The Price of Altruism We no longer think, like the ancient Chinese did, that the world was hatched from an egg, or, like the Maori, that it came from the tearing-apart of a love embrace. The Greeks told of a tempestuous Hera and a cunning Zeus, but we now use genes and natural selection to explain fear and desire, and physics to demystify the workings of the universe. Science is an astounding achievement, but are we really any wiser than the ancients? Has science revealed the secrets of fate and immortality? Has it provided protection from jealousy or love? There are those who believe that science has replaced faith, but must it also be a death knell for mythology? Evolutions brings to life the latest scientific thinking on the birth of the universe and the solar system, the journey from a single cell all the way to our human minds. Reawakening our sense of wonder and terror at the world around us and within us, Oren Harman uses modern science to create new and original mythologies. Here are the earth and the moon presenting a cosmological view of motherhood, a panicking mitochondrion introducing sex and death to the world, the loneliness of consciousness emerging from the memory of an octopus, and the birth of language in evolution summoning humankind ' s struggle with truth. Science may not solve our existential puzzles, but like the age-old legends, its magical discoveries can help us continue the never-ending search.

Reincarnation is the idea and some would say fact that after we die we return and live other lives. The reason for this cycle is that the world offers us the chance to grow and learn based on the many physical challenges it offers. When we have learned and progressed enough, through numerous lives, there will be no more need to return. This book covers the various cultures that accept the idea, and what it really means to us, as individuals. Those who are steeped in pure logic reject the idea due to the lack of strong scientific evidence. They fail to realize that one cannot present spiritual proofs in a laboratory. Matter itself and the material world can show physical evidence but spirit and matter are two separate things. So where is the proof for reincarnation? One good answer, and a great starting point, is to open this book. Spiritual proof exists for those who can comprehend it.
