Ashraf Marwan was an Egyptian billionaire. Marwan worked as a spy for the Israeli Mossad, though some contend that he was a double agent. From 1969, Marwan served in the Presidential Office, first under Gamal Abdel Nasser and, then as a close aide to his successor, President Anwar Sadat. In 2002 it became known that, during the period leading up to the October 1973 Yom Kippur War, Marwan spied for Israel. His warning on 5 October 1973 that "war will start tomorrow", triggered an emergency Israel

SOON TO BE A NETFLIX ORIGINAL MOVIE A gripping feat of reportage that exposes—for the first time in English—the sensational life and mysterious death of Ashraf Marwan, an Egyptian senior official who spied for Israel, offering new insight into the turbulent modern history of the Middle East. As the son-in-law of Egyptian president Gamal Abdel Nasser and a close advisor to his successor, Anwar Sadat, Ashraf Marwan had access to the deepest secrets of the country ’ s government. But Marwan himself had a secret: He was a spy for the Mossad, Israel ’ s intelligence service. Under the codename “ The Angel, ” Marwan turned Egypt into an open book for the Israeli intelligence services—and, by alerting the Mossad in advance of the joint Egyptian-Syrian attack on Yom Kippur, saved Israel from a devastating defeat. Drawing on meticulous research and interviews with many key participants, Uri Bar Joseph pieces together Marwan ’ s story. In the process, he sheds new light on this volatile time in modern Egyptian and Middle Eastern history, culminating in 2011 ’ s Arab Spring. The Angel also chronicles the discord within the Israeli government that brought down Prime Minister Golda Meir. However, this nail-biting narrative doesn ’ t end with Israel ’ s victory in the Yom Kippur War. Marwan eluded Egypt ’ s ruthless secret services for many years, but then somebody talked. Five years later, in 2007, his body was found in the garden of his London apartment building. Police suspected he had been thrown from his fifth-floor balcony, and thanks to explosive new evidence, Bar-Joseph can finally reveal who, how, and why.

Examines how Israel was caught by surprise in the opening stages of the 1973 Yom Kippur War. Based on many formerly undisclosed intelligence and military documents, the secret protocols of discussions on the eve of the war, and interviews with relevant figures, *The Watchman Fell Asleep* is a compelling account of Israel 's intelligence failure before the 1973 Arab attack known as the Yom Kippur War. The Hebrew version of this book was awarded the Tshetshik Prize for Strategic Studies on Israel 's Security in 2001, and the Israeli Political Science Association 's Best Book Award in 2002. Available here in English for the first time, Uri Bar-Joseph has crafted an authoritative explanation of the most traumatic event in Israel 's stormy history and one of the biggest strategic military surprises of the twentieth century. Uri Bar-Joseph is Professor of International Relations at Haifa University. He is the author of *Intelligence Intervention in the Politics of Democratic States: The United States, Israel, and Britain* and *The Best of Enemies: Israel and Transjordan in the War of 1948*.

From Book's back cover: Shortly after midday on 27 June 2007, a man plummets from his fifth-floor London flat. Did he jump or was he pushed? He is identified as an Egyptian millionaire who has been living in the UK since the early 1980s. His name is Ashraf Marwan. But that is only part of the tale, for Marwan was also an international businessman and arms dealer, married to Mona Abdel Nasser, daughter of the legendary Egyptian President, Gamal Abdel Nasser. A few years before, I blew Marwan's cover, unmasking him as a top spy who had been working for Egypt's biggest enemy - Israel. But there is a twist - one that even the most audacious writer of fiction might balk at. Soon after I exposed him, Marwan made contact. We met, became friends, and then kept in touch for almost five years. The day before he plunges to his death, Marwan phones. He is anxious and shaken and he asks for an urgent face-to-face meeting. We schedule it for the next day. It never takes place. Around the time we are due to meet, Marwan's body is found in the private rose garden below his flat in central London. This is the story of what came to be known as 'The Marwan Affair', which shocked the public and the Intelligence community. It is based on my diary notes; together with messages I sent Marwan over the years they tell the inside story of my relationship with the spy some call the greatest secret agent of the twentieth century.

The study of strategic surprise has long concentrated on important failures that resulted in catastrophes such as Pearl Harbor

and the September 11th attacks, and the majority of previously published research in the field determines that such large-scale military failures often stem from defective information-processing systems. Intelligence Success and Failure challenges this common assertion that catastrophic surprise attacks are the unmistakable products of warning failure alone. Further, Uri Bar-Joseph and Rose McDermott approach this topic uniquely by highlighting the successful cases of strategic surprise, as well as the failures, from a psychological perspective. This book delineates the critical role of individual psychopathologies in precipitating failure by investigating important historical cases. Bar-Joseph and McDermott use six particular military attacks as examples for their analysis, including: "Barbarossa," the June 1941 German invasion of the USSR (failure); the fall-winter 1941 battle for Moscow (success); the Arab attack on Israel on Yom Kippur 1973 (failure); and the second Egyptian offensive in the war six days later (success). From these specific cases and others, they analyze the psychological mechanisms through which leaders assess their own fatal mistakes and use the intelligence available to them. Their research examines the factors that contribute to failure and success in responding to strategic surprise and identify the learning process that central decision makers use to facilitate subsequent successes. Intelligence Success and Failure presents a new theory in the study of strategic surprise that claims the key explanation for warning failure is not unintentional action, but rather, motivated biases in key intelligence and central leaders that null any sense of doubt prior to surprise attacks.

Suicide attacks on Israelis, bombings, assassinations, and bloodshed in Jerusalem, Gaza, and the West Bank dominate the news from the Middle East. It is the most troubled region on earth. At its heart is the conflict between Palestinians and Israelis - and the legacy of six days of war in 1967. After the state of Israel emerged from war in 1948, both sides knew more battles were coming. In June 1967, years of slow-burning tension exploded. In six extraordinary days, Israel destroyed the armed forces of Egypt, Jordan, and Syria. But far from bringing peace, as many Israelis hoped, their stunning victory turned into a curse. From the initial battle order issued to the Israeli air force on Monday June 5, 1967 to the final ceasefire on the evening of Saturday the 10th, the Six-Day War was a riveting human drama. Building on his first-hand experience of the region after his five years as the BBC's Middle East Correspondent, as well as extensive original research, Jeremy Bowen presents a compelling new history of the conflict. Six Days recreates day by day, hour by hour, the bullying and brinkmanship that led four nations to war, interweaving testimonies of combatants from all sides in a seamless narrative. A rigorous and original piece of modern history is as vivid as fiction, Six Days not only sheds new light on one of the key conflicts of the twentieth century, it explains much about the Middle East and the problems the region still faces today.

His never before revealed story makes an action-packed biography.
