This book tells the true story of the first murder ever to be solved using DNA, with the odd twist and turn along the way. The scientist that discovered how to extract a DNA profile is British, and the crimes are committed in traditional English villages, but this book is written by acclaimed American writer Joseph Wambaugh - and it's none the worse for that.

The Bleeding: The Dramatic True Story of the First Murder ...

Three years later the killer strikes again, raping and strangling teenager Dawn Ashforth only a stone's throw from where Lynda was so brutally murdered. But it will take four years, a scientific breakthrough, the largest manhunt in British crime annals, and the bleeding of more than four thousand men before the real killer is found. Fifteen-year-old Lynda Mann's savagely raped and strangled body is found along a shady footpath near the English village of Narborough.

The Bleeding

One of Wambaugh's true crime books, although his non-fiction is as easy to read as his fiction. This one has some characters that are almost worthy of being included among Wambaugh's fictional roster. The book briefly traces the development of DNA, and covers the first use of DNA to conclusively solve a case.

Wambaugh's latest triumphant venture into true crime turns to Leicestershire, England, and the slayings of two teenagers, killings that were eventually solved through scientist Alec Jeffreys's discovery of genetic fingerprinting. "As Wambaugh's fans have come to expect, this is an eminently readable and most impressive book," praised PW.
