For the first time in eBook edition comes a science fiction classic that is at once eerie and prescient, wildly entertaining and ferociously intelligent. Winner of the Nebula Award, the Hugo Award, the Locus Award, and one of the most acclaimed writers in science fiction, Ursula Le Guin's classic novel The Lathe of Heaven imagines a world in which one man's dreams can change all of our realities. In a world beset by climate instability and overpopulation, George Orr discovers that his dreams have the power to alter reality. Upon waking, the world he knew has become a strange, barely recognizable place, where only George has the clear memory of how it was before. He seeks counseling from Dr. William Haber, a psychiatrist who immediately understands how powerful a weapon George wields. Soon, George is a pawn in Haber's dangerous game, where the fate of humanity grows more imperiled with every waking hour. As relevant to our current world as it was when it won the Locus Award, Ursula Le Guin's novel is a true classic, at once eerie and prescient, wildly entertaining and ferociously intelligent.

George Orr discovers that his dreams possess the remarkable ability to change the world, and when he falls into the hands of a power-mad psychiatrist, he counters by dreaming up a perfect world that can overcome his nightmares, in a new edition of the classic science fiction novel. Reprint. 20,000 first printing.

In interviews spanning over twenty-five years of her literary career, including a previously unpublished piece conducted by the volume's editor, Le Guin talks about such diverse subjects as U.S. foreign policy, the history of architecture, the place of women and feminist consciousness in American literature, and the differences between science fiction and fantasy. --From the publisher description.

"A fantastical travel guide, reminiscent of Gulliver's Travels," from a narrator with "the eye of an anthropologist and the humor of a satirist." —USA Today Hailed by Neil Gaiman as "a master of the craft" and Margaret Atwood as "a quintessentially American writer," Ursula K. Le Guin is at her entertaining, thought-provoking best in this collection of ingeniously linked stories. Missing a flight, waiting in an airport, listening to garbled announcements—who doesn't hate that misery? But Sita Dulp of Cincinnati finds a way to bypass the long lines, the crowded restrooms, the nasty food, the whimpering children and domineering parents, the bookless bookstores, the plastic chairs bolted to the floor. . . . With a kind of twist and a slipping bend, easier to do than to describe, Sita travels not to Denver but to Strupsirts, a picturesque region of waterspouts and volcanoes. Or to Djeyo, where she can stay for two nights with a balcony overlooking the amber Sea of Somue. This new method of "changing planes" enables Sita to visit bizarre societies and cultures that sometimes mirror our own . . . and sometimes open doors into the thrillingly alien. A New York Times Notable Book and Los Angeles Times bestseller, featuring illustrations by Eric Beddows, Changing Planes is your boarding pass to fifteen worlds that are vintage Le Guin, from a recipient of the PEN/Malamud Award for excellence in the art of the short story.

From Marie Phillips, hailed by the Guardian Unlimited website as a "hot author" destined to "break through" in 2007, comes a highly entertaining novel set in North London, where the Greek gods have been living in obscurity since the seventeenth century. Being immortal isn't all it's cracked up to be. Life's hard for a Greek god in the twenty-first century: nobody believes in you any more, even your own family doesn't respect you, and you're stuck in a dilapidated hovel in North London with too many siblings and not enough hot water. But for Artemis (goddess of hunting, professional dog walker), Aphrodite (goddess of beauty, telephone sex operator) and Apollo (god of the sun, TV psychic) there's no way out... until a meek cleaner and her would-be boyfriend come into their lives and turn the world upside down. Gods Behaving Badly is that rare thing, a charming, funny, utterly original novel that satisfies the head and the heart.

This poetry collection by the Hugo and Nebula Award-winning author presents selections from across fifty years of verse—plus more than seventy new poems. Though internationally celebrated for her imaginative fiction, Ursula K. Le Guin started out as a poet, and since 1959 has never ceased to publish poems. Finding My Elegy distills her life's work in verse, offering a selection of the best from her six earlier volumes of poetry as well as powerful new poems written in the first decade of the twenty-first century. The fruit of over a half century of writing, the seventy selected and seventy-seven new poems consider war and creativity, motherhood and the natural world, and glint with humor and vivid beauty. These moving works of art are a reckoning with a whole life. "She never loses touch with her reverence for the immense what is." —Margaret Atwood

A compendium of classic science fiction novellas by writers such as Ray Bradbury, E. M. Forster, Jack Vance, Clifford D. Simak, and Frederik Pohl.
