The task of the philosopher of art is not to heighten understanding and appreciation of works of art but to provide conceptual foundations for the critic by (1) examining the basic concepts that underlie the activities of critics and enable them to speak and write more intelligibly about the arts and by (2) arriving at true conclusions about art, aesthetic value, expression, and the other concepts that critics employ.

Contemporary Philosophy of Art: Readings in Analytic Aesthetics: Bender, John W., Blocker, H. Gene: Amazon.sg: Books

This anthology is intended as a core text for courses in aesthetics or philosophy of art. It contains a wealth of readings from both classic and contemporary sources, and aims to present substantial selections from those texts rather than mere "snippets." Readings are organized historically within four broad themes so that students can see how concepts of art have evolved and been debated. Each reading is introduced by the authors, who suggest connections between the reading and others in the anthology. Unlike other anthologies on the market, The Philosophy of Art is both comprehensive and affordable, making it the ideal book for course use.

Art and Interpretation is a comprehensive anthology of readings on aesthetics. Its aim is to present fundamental philosophical issues in such a way as to create a common vocabulary for those from diverse backgrounds to communicate meaningfully about aesthetic issues. To that end, the editor has provided selections from a wide variety of challenging works in aesthetic theory, both classical and modern. The approach is often cross-disciplinary. Within the discipline of philosophy it seeks to balance readings from the analytic tradition with continental European, hermeneutical postmodern (including deconstructionist), and feminist readings. The anthology is thus broadly conceived, but by grouping the readings into sections such as 'Expression and Aesthetic object,' 'Psychology and Interpretation,' 'Marxist Theory,' and 'Culture, Gender, and Difference,' it aims as well to provide depth of coverage for each topic or issue. The book opens with a historical section containing substantial selections from Plato, Aristotle, Hume, Kant, Shelley and Nietzsche; these readings introduce themes that recur and are developed in the remainder of the anthology.

This anthology is remarkable not only for the selections themselves, among which the Schelling and the Heidegger essays were translated especially for this volume, but also for the editors' general introduction and the introductory essays for each selection, which make this volume an invaluable aid to the study of the powerful, recurrent ideas concerning art, beauty, critical method, and the nature of representation. Because this collection makes clear the ways in which the philosophy of art relates to and is part of general philosophical positions, it will be an essential sourcebook to students of philosophy, art history, and literary criticism.

This anthology proves that it is the human norm for all people to participate in meaningful and purposeful art, craft, and work because this is part of human nature itself.

An anthology of contemporary readings in analytic aesthetics, this reference reflects the relationships among the central aesthetic concerns of recent years. Providing a new perspective on the contemporary philosophy of art, this volume examines the challenge of Postmodernism and how it may or may not affect the future of analytic aesthetics ... offers a case study of the progress that has been made in handling the problem of expression in the arts ... reconceptualizes the concepts of the art work, its properties, and our experience and evaluation of it -- to take into account an expanding cultural, sociological contextualization, i.e., art as a culturally emergent product of social institutions and conventions ... features several readings organized around clusters of writers discussing each other's ideas and proposals, including: Beardsley, Dickie, and Bilzek -- Wolterstorff, Levinson, and Bender -- Stolnitz and Dickie -- Beardsley, Margolis, and Novitz -- and Sibley and Dickie. Suitable for professionals in the art industry and anyone interested in the philosophy or aesthetics of art.
