A leading Turkish political scientist enhances understanding of the interactions of liberal democracy with longstanding cultural cleavages along secular-religious lines, ethnicity, and social class. This chronological narrative focuses on how the process of urbanization and industrialization has led to social mobilization and population movements.

Abstract. An institutional military coup on September 12, 1980, led to the third breakdown of Turkish democracy since 1945. The military government that took over the reins of government dramatically overhauled the Turkish political regime, as it drew up and adopted a new constitution in 1982 through a popular referendum, in which 90 percent of the voters participated and slightly more than 90 ...
